STILOSÀ

 BY MADRIGAL

Stilosa is a rechargeable table lamp made of painted aluminum with a polymethylacrylate light diffusor. Its 20 adjustable intensity LEDs produce a pleasant and natural warm light. The touch surface located on the diffusor enables you to turn the light on and off and also has a dimmer function to adjust the brightness.

TOUCH SURFACE

Stilosa has an IP54 protection rating that makes it suitable for interior and exterior use. It can be charged easily with a standard micro USB cable which is included in the package along with the 10W USB power supply. The battery life ranges from 8 to 48 hours per charge based on the brightness.

LIGHT OUTPUT:	20 LEDS - 240 LUMENS - CRI 95+
DIFFUSOR:	110 MM DIAMETER - 65 MM HEIGHT
BASE:	100 MM DIAMETER - 12 MM THICKNESS
HEIGHT:	350 MM
CONTROLS:	TOUCH ON/OFF + STEPLESS DIMMER (WITH MEMORY)
POWER:	INPUT 5V USB - 3.5W MAX POWER CONSUMPTION
BATTERY:	3.6V 5200 mAh (2 x 2600 mAh)
BATTERY LIFE:	8 - 48 HOURS BASED ON BRIGHTNESS
RECHARGING TIME:	MAX 6 HOURS WITH 2A POWER SUPPLY (10W)

USE OF THE STILOSA LAMP

TURNING ON AND OFF

The lamp is turned on and off with a quick tap on the touch surface of the lamp shade.

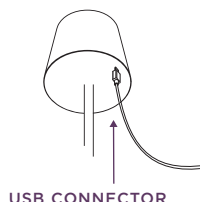

BRIGHTNESS ADJUSTMENT

When the lamp is turned on, hold your finger on the touch surface of the lamp shade until the desired brightness is reached. When turned on, the lamp returns to the maximum brightness of 100%.

RECHARGING

To recharge the lamp, lift the protective cover under the lamp shade and connect the provided micro USB cable to a standard USB charger. A red light indicates the charging status of the lamp. Charging is complete when the light turns green.

TIPS AND MAINTENANCE

Charge the product completely before first use. Use a **5V - 2A (10W) charger** like the one provided to charge the lamp in order to reduce wait time. The batteries last up to 500 charge cycles and can be replaced by our after-sales service which is available on the www.madrigal-design.com website.

When the lamp has not been used for a long time, we recommend you perform a series of charge and discharge cycles and we recommend that the battery not be allowed to go below 20% charge. When the silicon cover of the USB connector is closed, the lamp achieves an IP54 level of protection and is suitable for external use.

Clean the lamp with a clean and dry cloth.

WARRANTY

Madrigal offers a 2 year warranty on the product from the date of purchase for non professional use.

The warranty does not cover scratches, aesthetic imperfections or damage caused by impacts, falls, mechanical pressure, or contamination. Madrigal reserves the right to evaluate warranty claims, verifying that the product and its accessories have been used according to the use instructions and that there was no tampering.

SUPPORT AND ASSISTENCE

If you need assistance, our support service is available through the **www.madrigal-design.com** website or via Whatsapp by sending a message to **0039 02 87169002**.
